Yavapai County
Arizona

HAER AZ-65-EE

INDEX TO BLACK AND WHITE PHOTOGRAPHS

AZ-65-EE-1	View of west end of Childs Powerhouse, including transformer station and associated sheds. Looking downstream (east)
AZ-65-EE-2	View of rear of Childs Powerhouse. Rockwork on east end was recently replaced following a flood. Looking south-southwest
AZ-65-EE-3	View of east and south (rear) walls, water wheels and generators, interior of Childs Powerhouse. Looking southeast
AZ-65-EE-4	View of north wall (electrical panel), interior of Childs Powerhouse. Looking east
AZ-65-EE-5	View of water wheel, generator #3 and exciter (at east end of Childs Powerhouse) on a single shaft. In foreground the governor and shut-off valve are visible. Looking southwest
AZ-65-EE-6	View of governor, water wheel, generator #1 and exciter (west end of Childs Powerhouse). Looking southeast
AZ-65-EE-7	View of Childs Powerhouse electrical panel and operator station. In foreground generator #2 and its exciter are visible. Looking north
AZ-65-EE-8	View of the current distribution "bus" atop switching cabinets within the former transformer building. Looking northwest
AZ-65-EE-9	Bead Roller, at right, used for preparing flume sheeting (still in use, 2004); on left is a pipe cutter. Facing southeast
